

What your gift helps make possible

Your gift helps YES provide comprehensive mental health intervention, treatment and prevention services to every Eastside youth and family that needs help regardless of ability to pay. These services include youth & family counseling, substance and sexual abuse treatment, violence prevention, mentoring, young/teen parenting support and general parenting support. These services can be accessed at YES' three facilities - Bellevue, Kirkland & Redmond (and Sammamish in 2010) - as well as at 40 partner sites including elementary, junior and high schools, teen and community centers and other human service providers. Your gift helps make these services possible for the entire Eastside community and helps ensure that no one is turned away if unable to pay for the help they receive.
